

# Rwear

## CUSTOM APPAREL SOLUTION

### Transform Your Imagination into Reality

As a creative professional, you have access to a world of innovative tools. The most powerful tool of all, though, is still your imagination.

Introducing R-Wear™, a custom apparel solution that makes it easy to be creative. With R-Wear™, you can produce a wide range of personalised T-shirts, hats, gym bags and more using full-colour photos and illustrations, iron-on-crystals, flock heat transfer or any combination of these materials for added impact!

Capture your creativity with Roland DG, because using the right tools can transform your imagination into reality.

### Tools of The Trade Professional-grade devices are available to fit your budget and your work space:

- A Roland VersaCAMM VP-300 printer/cutter to precision print graphics and photos, and contour cut virtually any shape — all in one device through one continuous workflow.
- A Roland EGX-350 desktop engraver or EGX-30 compact desktop engraver for creating custom rhinestone templates
- A Roland GX-24 professional cutter for contour cutting pre-printed graphics, twill and other transfer materials
- The desktop or wide-format printer of your choice
- Adobe® Illustrator® or CorelDraw design software
- Standard heat press and transfer sheets
- Swarovski® Hot fix rhinestones - available in a dazzling array of sizes and colours
