News Headlines – What's happening at Conect?

- Vipond's Paints have advised us of an increase on their range of paints. Effective 1/11/07 prices have risen by 3% we apologise for any inconvenience this may cause
- All staff are well rested and ready for the pre Christmas rush after our 4 day long weekend for Melbourne Cup – we hope our customers weren't inconvenienced by this closure with the extended prior notice given this year.
- We would like to Welcome Sandra Butcher to Conect as our new Credit focal point. Sandra works Tuesday, Wednesday and Thursday and can be contacted on 8773 4100 with your account inquiries.
- Conect would like to congratulate Frank Matthews on his recent full time promotion to customer service at our Carrum Downs office. Frank has been with Conect 5 years and is looking forward to helping all our customers with their orders and queries.
- Conect is expanding its sales force in January 2008 with a new sales representative to help us manage our growing customer base more efficiently. This may mean some changes and we will keep you posted early in the New Year what this means for you.

Product Overview - to make life easier

Conect launches 3 new Roland print machines!

Conect is pleased to announce the launch of 3 new Roland print machines into our range:

The Soljet Pro III XJ-640 & XJ-740

"The new SOLJET PRO III XJ series is precision engineered for the demands of today's fast-paced, quality-driven marketplace," said Yohei Shinomura, Roland DG colour product manager. "XJ series printers take productivity and performance to a new level with maximum print speeds of up to 42.6m²/hr and stunning image quality in every print mode. With the XJ, shops can capture the fine details critical to indoor graphics while producing the dense, rich colours required for vivid, high-impact outdoor graphics."

And the Advanced Jet AJ-740

"High-speed printing of up to 81m²/h (872 sqft/hr) gives the AJ-740 the power and productivity needed for both high-volume and rush jobs," said Yohei Shinomura, Roland DG colour product manager. "At 74" wide, the AJ-740 supports the majority of media available today for these applications. With demand increasing for high-speed, small lot production of a wide variety of graphics, shops are looking for more productive and flexible printers. The AJ-740 has been precision engineered for this market and can help businesses take advantage of this significant growth opportunity."

For more information on any Roland product sales please call Cameron Bongartz on 0403 384 674 or email Cameron@conect.net.au

Conect R Tape Clear AT 60 – a new alternative

Are you having problems with your current paper or clear app tape?

At \$170 plus GST for a 1220mm x 91m roll our new Conect R Tape Clear AT 60 is certainly proving popular. Conect R Tape AT 60 has an exceptionally clear face stock, which make applying multi colour overlays a joy.

AT 60 has a slightly tackier adhesive which gives the film extra power even when transferring difficult vinyls. (Don't you just get sick of how some vinyls just won't lift and cause you extra work?) New improvements to the product have resulted in a flatter tape that resists curling and tunnelling. The polypropylene face minimise stretching during application.

Why not try a roll of R Tape AT 60 today and make your life a bit easier?

Email info@conect.net.au to place an order or to find out more!

Calon DPF 8000 – providing more solutions than questions.

At Conect we provide many answers to many questions on a daily basis. One product that we keep recommending time and time again is Calon DPF 8000.

Calon DPF 8000 is the perfect product for applying to low energy or hard to stick to surfaces including:

- Concrete
- Brick
- Acrylic Plaster Walls
- Cold surfaces
- Even Ceramic toilets!!

DPF 8000 is available in 1370mm & 1524mm x 15m and 45m rolls

More info about the product is available here

Conectbond Aluminium Composite Panel – a great alternative to colorbond.

Pricing now reduced even further to help you save!

We are pleased to report that our first shipment of Conect Bond was a sell out, with customers very happy with the product consistency, quality and pricing. Rather than keep white and silver sheets we have now *combined* the two on one sheet (in our next shipment) so you can choose!!

One of the best things about Aluminium Composite panel is that comes in different colours, this means not having to paint a back ground or lay it with vinyl saving you time and money.

Our next shipment is due to arrive any day with the following new lines:

Color	Thickne ss	Sheet Size	Finish	Application
White/Silver Met	3mm	1.2m x 2.4	Polyester	Mounting vinyl and digital internal & short term external signage
Black/Mill	3mm	1.2m x 2.4	Polyester	Mounting vinyl and digital internal & short term external signage
Due in early 2008				
White/Silver Met	2mm	1.25m x 2.5m	PVDF	External outdoor signage – can be UV printed, routed, bent and cut
White/Silver Met	3mm	1.25m x 2.5m	PVDF	External outdoor signage – can be UV printed, routed, bent and cut
White/Silver Met	3mm	1.25m x 3.05m*	PVDF	External outdoor signage – can be UV printed, routed, bent and cut
White/Silver Met	4mm	1.25m x 2.5m	PVDF	External outdoor signage – can be UV printed, routed, bent and cut
White/Silver Met	4mm	1.25m x 3.05m*	PVDF	External outdoor signage – can be UV printed, routed, bent and cut

* 3.05m sheets and above with incur a special delivery levy for a point to point service.

We will advise when samples and prices when the stock arrives. In the mean time you can email us at info@conect.net.au for more info!

Conect Training programs – to increase your knowledge and give peace of mind...

Versaworks V2.2 Advanced training

Just a reminder that there are still some spots available for our **Versaworks V2.2 Advanced training course** on the 12th of December. This full day course covers the standard and advanced features of Versaworks. Learn how to manage and tweak profiles as well as improve colour management. This course is a must for any person trying to get the best out of their Roland Printer.

Read more info below but be quick as spots are limited. Or call **Cameron on 0403384674** today!
