

# APPLIKATOR 2R By

**EMSeal** PTY LTD  
 Australian Manufacture Since 1980

**Professional cost effective finishing system**

## Features

The Applikator 2R ( 2 Roller ) Series pressure sensitive laminator has been designed with the medium volume user in mind, and for those with little space available.

Fully assembled in the box, the machine is easy to set up and easy to operate. Even a first time user can achieve professional results quickly.

The Applikator 2R is the perfect choice for Sign makers and Digital imaging businesses who require high quality finishing of their images.

**Dry Mounting of images** onto soft substrate substrates up to 5mm (3/16") thick without any adjustment to the machine. No air compressor is required.

**Upper wind-off system** comes as standard.

Optional Lower rewind kit, will enable total encapsulation of an item using pressure sensitive film.

**Pre-assembly** allows the machine to be ready for use within minutes of removing it from the box. No more lengthy and difficult setup.

**Foot switch** enables the operator to have both hands free for loading and operation of the machine. Safety Cover for foot switch optional.

All models come with opening roller system.  
 370mm to 1360mm Models come with 60mm Dia rollers as Standard.  
 1420mm & 1650mm Models come with 85mm Dia rollers as Standard.

Safety features include emergency stop, optional covered foot switch, roller cover and micro switching on roller cover.

**Hand wound machines available in widths up to 1120mm ( 44" )**
