HP Latex R1000 Plus Printer

Help grow your business by printing high-value jobs on one device with white¹, rigid and flexible

Get amazing colors, rigid and flexible up to 64 in

- Grow your business into higher value rigid/flexible jobs with vibrant HP Latex gamut, media look and feel.
- Gain versatility with HP Latex Ink—from indoor/outdoor signage to thermoforming and high-quality decoration.
- Win more jobs with UL ECOLOGO® Certified, water-based HP Latex Inks that produce odorless prints.²

We've removed the barriers to print with white¹

- Expand your portfolio into a wide range of applications with glossiest white that resists yellowing.¹
- No waste between white jobs³ with removable HP Thermal Inkjet printheads stored in offline rotating chamber.
- You're always ready to print white-automatic recirculation and printhead cleaning eliminate manual purging

Manage your peaks in-house with smart printing

- Meet production peaks—get high-speed quality up to 15 outdoor boards/hr⁴ with belt system, smart vacuum.
- Help avoid costly operating errors with an easy interface including advanced queuing and multiboard printing.
- Maximize uptime with automatic maintenance and smart service tools for fast diagnosis and issue resolution.
- Maintain control of your production and costs with the help of HP PrintOS software tools.

Dynamic security enabled printer. Only intended to be used with cartridges using an HP original chip. Cartridges using a non-HP chip may not work, and those that work today may not work in the future. More at: http://www.hp.com/go/learnaboutsupplies

¹ Glossiest white based on internal HP testing in January, 2018 compared to the HP Scitex FB750/FB550 Printer using UV-curable ink technology. White ink measured for the level of gloss at 60 degrees on a rigid material (acrylic). Tested using Glossmeter BYK micro-TRI-gloss (20°, 60°, 85°), compatible with ISO 2813 and ASTM D523 relative to glossiness measure. High opacity and resists yellowing over time based on internal HP WeatherOmeter testing October, 2017 with 1 dot-per-pixel HP Latex Overcoat, on a range of rigid and flexible unlaminated substrates. Yellowing based on L* and B* of white underflood samples. ² HP Latex Inks are UL ECOLOGO® Certified UL ECOLOGO® Certification to UL 2801 demonstrates that an ink meets a range of multi-attribute, lifecycle based criteria related to human health and environmental considerations (see http://www.ul.com/EL). There is a broad set of media with very different odor profiles. Some of the media can affect the odor performance of the final print. ³ When HP 886 White Latex Printheads are placed in the storage cassettes, no white ink is used for servicing when printheads are not in use. ⁴ Outdoor mode 3-pass, 70%. On 4 x 8 ft (1.2 x 2.4 m) boards.

ECO highlights

- Better for print operations—no hazard warning labels or HAPs, no special ventilation needed¹
 Better for the environment—HP designs end-to-end sustainability into large-format
- printing Water-based inks produce odorless prints²
- HP Latex Inks are UL ECOLOGO® and UL GREENGUARD GOLD Certified³

Please recycle large-format printing hardware and printing supplies. Find out how at our website: http://www.hp.com/ecosolutions

¹ Contains no Hazardous Air Pollutants according to EPA Method 311. Special ventilation equipment (air filtration) is not required to meet U.S. OSHA requirements. Special ventilation equipment installation is at the discretion of the customer—see the Site Preparation Guide for details. Customers should consult state and local requirements and regulations. Contains no Hazardous Air Pollutants according to EPA Method 311.
² There is a broad set of media with very different odor profiles. Some of the media can affect the odor performance of the final print.
³ UL ECOLOGO® Certification to UL 2801 demonstrates that an ink meets a range of multi-attribute, lifecycle based criteria related to human health and environmental considerations (see http://www.ul.com/EL). UL GREENGUARD GOLD Certification to UL 2818 demonstrates that product sare certified to UL's GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit http://www.ul.com/gg or http://www.greenguard.org.

¹ Print speed may vary due to the adaptive printing mechanism to avoid image quality defects. ² Reflective measurements on a 943 color target under CIE standard illuminant D50, and according to the standard CIEDE2000 as per CIE Draft Standard D5 014-6/E2012. Backlit substrates measured in tramsmission mode may yield different results. ³ Recyclable HP papers can be recycled through commonly available recycling programs, or according to region-specific practices. Some HP media are eligible for return through the HP Large Format Media take-back program. Programs may not exist in your area. See http://www.HPLFMedia.com/hp/ecosolutions for details.
